Dear Hiring team

I am so thrilled to be applying for the Integrove Graduate program. I am writing this letter to express facts about myself that my CV cannot highlight, that I have a passion for System Development. I have been teaching myself what I can while studying computer system engineering at Tshwane university of technology. JavaScript is such a powerful coding language for me. The ability to use one programming language to develop an entire web application is staggering. I am excited about the future of JavaScript since you can now code desktop applications using JavaScript.

While I was studying Computer System Engineering, I took multiple Udemy courses to supplement my school syllabus. Some of the courses I took include ReactJS, NodeJS, API, to name a few. I became highly motivated to learn more, and I believe the Integrove graduate program is the best opportunity to learn more and meet new challenges in my career path. In my years of being a student, I have maintained a reputation of being extremely efficient and professional in my school work. My academic records demonstrate that clear.

I am currently a freelancer, Developing software for clients. The number of clients I receive keep growing, while the feedback I get is overwhelmingly positive. I have developed a website for a client that sells and repairs medical equipment, With a marketing website's target audience being online. I have made the website to be visually beautiful while getting the point across. I am familiar with making a tight deadline, because of this, my client appreciates working with me. In my free time, I enjoy building side projects and learning a new programming language.

Since Integrove focuses on enabling digital solutions in the enterprise, I have a strong desire to contribute my skills to ensure that Integrove delivers what it promises. With the years of experience across multiple industries and geographies and the ability to architect and successfully deliver digital solutions. I believe my skills will be in proper use.

Thank you for considering me for the Graduate program within your company. I look forward to meeting you. Please do not hesitate to contact me if you have any questions.

Yours sincerely,  
**Hendry Khoza**
