Projects

Radserve (A website for a client)
Github: https://github.com/hendry3k | Live: https://www.radserve.co.za

I developed this website for a client that was looking to make sure that his business is available online. The website is well designed and responsive, also contains a working contact form using Formspree API

JavaScript | React | CSS-in-JS | HTML

Safe System using shape recognition
Github: https://github.com/hendry3k/safe-system |

The system uses shape recognition as a second method of authentication to gain access to the system. A random shape is generated and sent to the user, the user must scan the sent shape to gain access to the system.

Python | OpenCV | Raspberry Pi | Tkinter

Bankist (Minimalist Marketing Website)
Github: https://github.com/hendry3k/bankist | Live: https://hendry.xyz/bankist/

A one-page marketing website for a fictional bank. The website has modern features such as auto-scroll to section, Lazy loading Images, carousel or slider, and more. All the features are built from scratch.

JavaScript | HTML | CSS |
